

Supercharge your recruitment process by using our modern and data driven application and candidate scoring tool.

## ***JOB BOARD***

### **Putting the *human* back in Human Resources**

The recruitment process should be an enjoyable experience rather than a burdensome task. Use your HR team's time on engaging and motivating your employees.

### **Effective Process**

We are engaging recruiters that care about your experience. Our process leverages advanced data modeling to help match well-suited candidates with available jobs (fast!).

# Learn more about our service

Our solution delivers a candidate experience job applicants won't soon forget all while collecting key data points used to make effective hiring decisions.

## Application Form

Our online application form is extremely intuitive, ease to use and mobile friendly. We employ a conversational style that resembles more of an interview than some boring form.

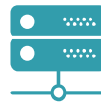

## Candidate Scoring

Using successful recruitment analytics and models, our candidate scoring algorithms highlight top candidates with lightning speed.

## Experience Driven

Process is focused on enhancing the experience for both candidate and hiring firm alike. Process is quick, intuitive and effective.

## Data at its core

Form captures relevant data points that feeds into our hiring models that analyses quick and outputs a ready to go shortlist.

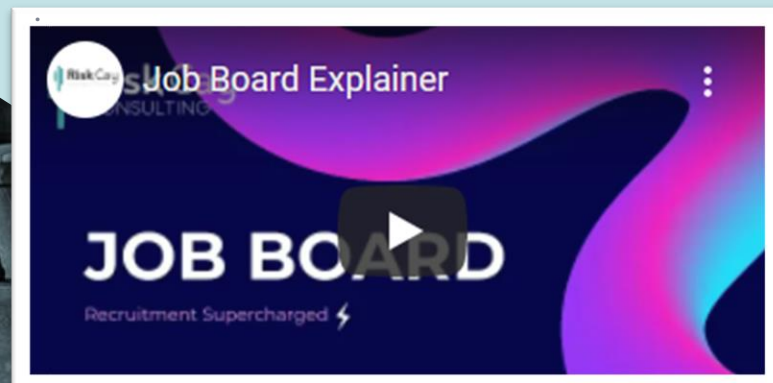

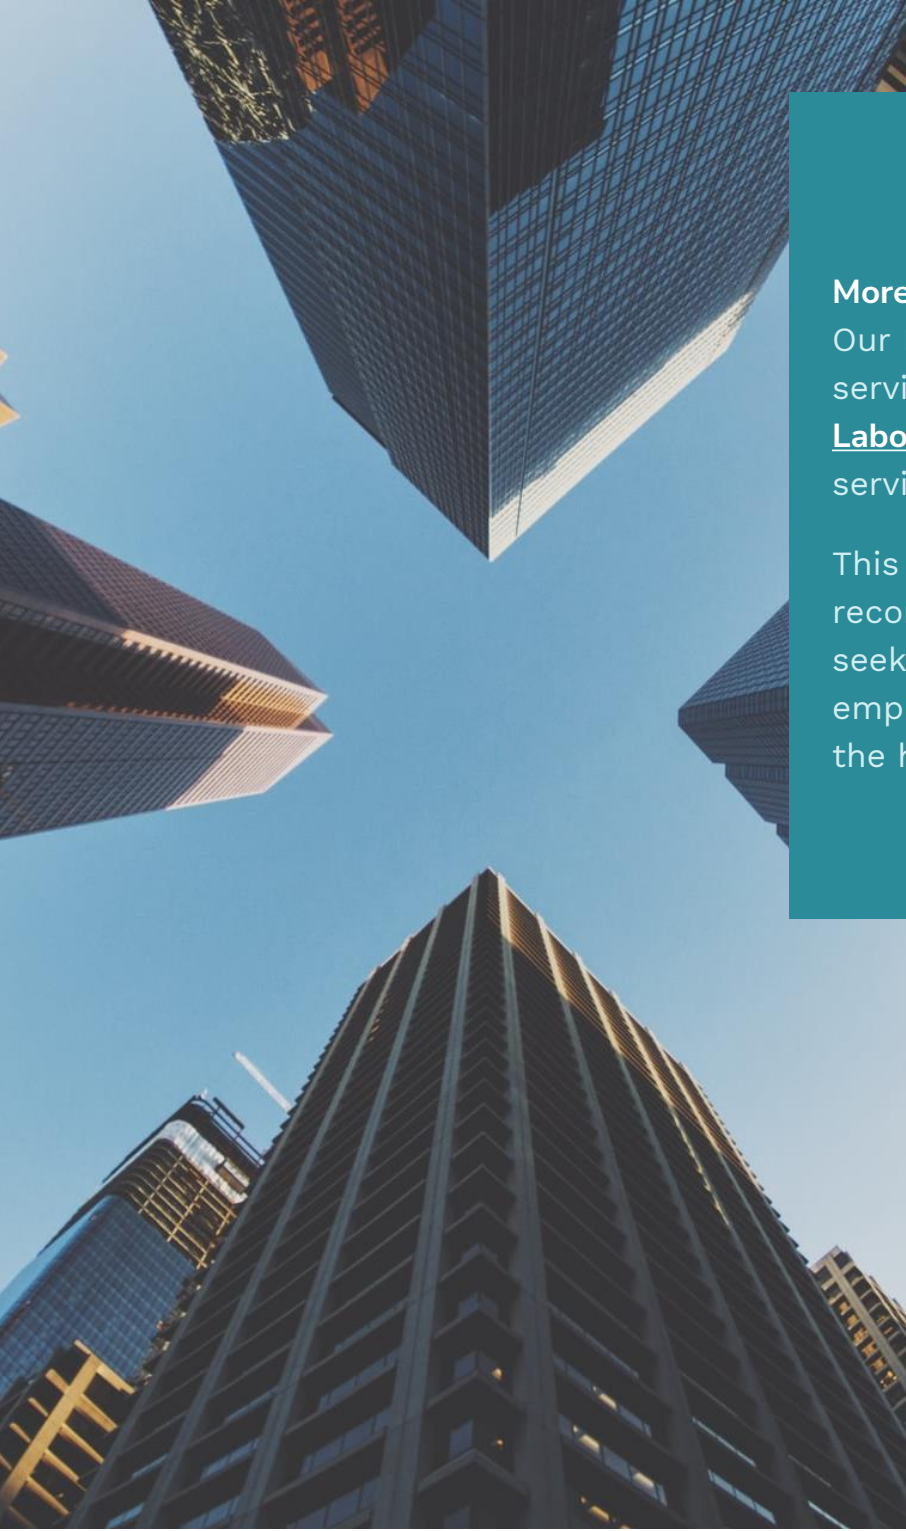

## Talent Pool

Our process allows for the ranking of all candidates, so we have deep talent pools that can be leverage by your firm. Meaning, no more going back to market to fill routine roles.
